SATURDAY 11 FEBRUARY

8:30 AM Opening of the workshop

Session 1: Controversies in breastfeeding
Chair: Natella Rakhmanina

8.45 AM Risks of HIV transmission through breastfeeding - a basic science perspective
Lena Serghides, PhD, University of Toronto, Canada

9.15 AM Systematic review of the risk of transmission through breastmilk (cohorts and randomized studies)
Mona Loutfy, MD, FRCPC, MPH, Women’s College Research Institute, Canada

Abstract - driven presentations:
9.45 AM Evaluation of cabergoline for lactation suppression in women living with HIV
K. Tulloch #1

10.00 AM US healthcare providers survey on breastfeeding among women living with HIV
M. Gross #2

10.15 AM Economic evaluation of infant feeding modalities for mothers in Canada living with HIV
R. Keshmiri #3

10.30 AM Discussion

10.45 AM Coffee break

11.15 AM Breastfeeding or not: pros and cons
Natella Rakhmanina, MD, PhD, FAAP, AAHIVS, The George Washington University, Children’s National Medical Center, USA
Lynne Mofenson, MD, Elisabeth Glaser Pediatric AIDS foundation, USA

11.30 AM Panel discussion: perspectives from developed and developing world
Natella Rakhmanina, MD, PhD, FAAP, AAHIVS, The George Washington University, Children’s National Medical Center, USA
Lynne Mofenson, MD, Elisabeth Glaser Pediatric AIDS foundation, USA
Angelina Namiba, Salamander Trust, United Kingdom

12.00 PM Group picture

12.15 PM Lunch

Session 2: HIV and HCV
Chairs: Sharon Walmsley and Mariana Mardarescu

1.00 PM HIV and HCV co-infections in women
Jürgen Rockstroh, MD, University of Bonn, Germany
PROGRAM

Abstract - driven presentation:
1.30 PM Effect of Sex and Hepatitis C co-infection on HIV treatment and mortality: a multisite,15-year follow-up
   T. O'Neill #4

1:45 PM Discussion

Session 3: Issues for the HIV- discordant couple
Chairs: Catherine Hankins and Mona Loutfy

2.00 PM Criminalization and legal issues
   Patrick Eba, PhD, UNAIDS, Switzerland

2.30 PM Male involvement
   Eche Ezeanolue, MD, MPH, University of Nevada, Las Vegas, USA

3.00 PM Ongoing testing during pregnancy
   Jared Baeten, MD, PhD, University of Washington, USA

3.30 PM Discussion

3.45 PM Coffee break

Session 4: Abstract session: Issues around pregnancy and HIV
Chairs: Michelle Giles and Deborah Money

4.15 PM Pregnancy and birth complications in women with HIV / AIDS in California: 1991-2010
   A. Arevalo #5

4.30 PM Elvitegravir/cobicistat pharmacokinetics in pregnancy and postpartum
   A. Stek #6

4.45 PM Identifying pregnant women for PrEP using routine antenatal care indicators in Kenya
   J. Pintye #7

5.00 PM Changes in genital tract HIV target cells with three progestin-based contraceptives
   L. Haddad #8

5.15 PM Discussion

5.30 PM Guided poster tour

Theme 1: HIV risk: issues for women and girls [moderator: Gina Brown]

   PrEPing for a PrEP demonstration project: understanding awareness and perspectives among women in Southern California
   J. Blumenthal #20

   HIV Risk factors and risk perception among adolescent girls and young women in Malawi
   J. Price #21

   High burden of asymptomatic genital tract infections among sexually-experienced youth enrolled in a community-based HIV prevention cohort in South Africa: Implications for HIV prevention programming for a priority population of adolescent girls and young women
   A. Kaida #22
PROGRAM

A unique population: adherence to PrEP among HIV negative women attempting conception with HIV positive male partners in the US

H. Nkwihoreze #23

Theme 2: Pregnancy and ARV therapy- outcomes (moderator: Kathleen Squires)

Protease inhibitor based CART is associated with high estradiol levels in pregnancy

K. Balogun #24

Association between antiretroviral treatment regimen and adverse birth outcomes for women living with HIV in Denmark

E. Moseholm #25

HIV continuum outcomes among women with and without depression in the perinatal period

F. Momplaisir #26

Factors associated with detectable viral load and treatment non-adherence in HIV-infected women in the first year postpartum

T. Mudrikova #27

7.00 PM  Networking dinner (Departure from the lobby at 6.45 PM. Pre-registration required)

SUNDAY 12 FEBRUARY

Session 5: Older women. Postmenopausal issues

Chairs: Margaret Johnson and Sharon Walmsley

8.30 AM  Routine health monitoring in the peri-post menopausal HIV woman

Ruth Greenblatt, MD, University of California, San Francisco, USA

9.00 AM  Sex-specific factors influencing cardiovascular disease risk among women aging with HIV

Markella Zanni, MD, Massachusetts General Hospital, USA

9.30 AM  Mental health issues for postmenopausal women

Leah Rubin, PhD, University of Illinois at Chicago, USA

Abstract - driven presentation:
10.00 AM  Early onset menopause among women living with HIV in Canada

N. Andany #9

10.15 AM  Discussion

10.30 AM  Coffee break

Session 6: New drugs – implications for women

Chairs: Margaret Johnson and Natella Rakhmanina

11.00 PM  Optimizing ARV for women

Kathleen Squires, MD, Jefferson University, USA
## PROGRAM

### Abstract - driven presentations:
